

Marko Line

SMI MK6

MarKo Line...new generation of digital minilabs!

MarKo Line is a new modular expandable line that offers you different models of digital minilabs to choose from...the right choice for your present and future needs! The Line provides the capacity and the formats you need for your business.

The distinctive features of the new MarKo line are:

- Small footprint, large performance
- Maximum image quality, minimum makeovers
- More flexibility, less operator training

...and the proprietary Swiss made LCD printing technology.

WE MK6

650 p/h 4x6" (10x15 cm)
8x12" (20x30 cm) Max Format
10 sq.ft. (0.97 m²) Footprint

MK6, the Medium-Speed of the new MarKo Line, is a compact, flexible and efficient digital minilab.

MAXIMUM COMPACTNESS

All-in-one single unit: Film & Paper processor, Film Scanner, Digital Printer, Workstation. Networkable to in-store terminals for digital and mobile input to facilitate business growth. Space-saving design for profitable retailing!

STATE-OF-THE-ART TECHNOLOGIES

Proprietary Swiss made LCD printing technology with highly reliable LED array illumination system: resolution of 500 dpi at 4" and 300 dpi at 8". High-resolution Film Scanner with Digital ICE™.

EXTREME MULTITASKING AND VERSATILITY

Simultaneous operations increasing actual overall productivity. CD burning while printing and wide variety of value-added digital services in real time to increase business opportunities.

W/W RENOWNED COLOR SCIENCE TECHNOLOGIES

Unrivalled expertise in color science reduces makeovers and ensures first-run high-quality prints both from films and digital files: d!pep™, Eye-Tech Scanning™, LODECO™ and automatic Red-Eye Removal.

UNIQUE USER INTERFACE

Proprietary, easy-to-use graphical software interface with LCD touch screen monitor increases operating comfort and guarantees easy operation with minimal training.

HIGH MODULARITY

Great and useful options at retailer's choice to have or not on board: Film Processor, Film Scanner, Internal or External Console.

MK6
